Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Allabaugh in view of Crute, Jr. and Naka. Allabaugh discloses the claimed invention except for plastic composition and the reinforcing ribs. Crute, Jr. teaches that it is known to provide a vent cover to be of a plastic material as set forth at column 3, lines 14-28. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the removable closure of Allabaugh of a plastic composition, as taught by Crute, Jr. in order to reduce its weight and render the same easily handled. Naka teaches that it is known to provide floor cover with projecting ribs as set forth at column 4, lines 29-31. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the undersurface of the closure of Allabaugh with ribs, as taught by Naka in order to reinforce the same. As to claims 2 and 3, Crute, Jr. teaches that it is known to provide a vent cover with a sealing gasket and also for sealing engagement with the adjacent surface of the wall around the opening there through as set forth at column 2, lines 14-19. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the closure of Allabaugh with sponge rubber, as taught by Crute, Jr. for its intended purpose.

Election/Restrictions

3. Claims 6-8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on October 4, 2004.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
